### **Technojo solutions – Hyderabad, TN**

**Technical Member Staff**, March 2022 – Present

#### **Project – Casino Games**

- I was included in E2E development of the project which includes requirement gathering,
- Designing, Coding activities and Maintenance.
- Implemented NGRX store to maintain the state of the application. NGRX store was used to store results after angular injector observables retrieved the data from the backend.
- Added logic to dispatch the action to NGRX store, this was done to update the store and to update components subscribed to that particular store.
- Worked with version control system GIT and bug tracking tools in an Agile Scrum.
- Experimenting with latest front-end technologies as a part of implementation of the high-volume.
- Code review and refactoring.
- Responsible for doing unit testing & integration testing of the code.

- Working on performance tuning to speed up the system.
- **Stack** : - Angular13, Angular 7, JQuery, Javascript, HTML, Angular Material, Bootstrap

### **Bluerose Technologies – Hyderabad, TN**

**Senior Angular developer**, Aug 2021 – Feb 2022

Project – **Caterpillar**

- I was including in E2E development of the project which includes requirement gathering,
- Designing, Coding activities and Maintenance.
- Experimenting with latest front-end technologies as a part of implementation of the high-volume
- external web app that helped to improve speed of web development.
- Code review and refactoring.
- Responsible for doing unit testing & integration testing of the code.
- Working on performance tuning to speed up the system.
