OBJECTIVE

Passionate and skilled Frontend Developer with 5 years of industry experience specializing in Angular, React, and a comprehensive skill set encompassing JavaScript, CSS, HTML, jQuery, Redux, RxJS, SCSS, Git, and responsive designs. Proven track record of delivering high-quality, user-centric web applications seeking to leverage expertise in a dynamic team environment.

PROFESSIONAL EXPERIENCE

- Overall IT experience of 5+ years in Web developer and primarily for Gaming platform, Healthcare, LMS.
- UI Scripting Frameworks / Design Techniques: Angular 2+ and React
- RxJS, NgRx, TypeScript, JavaScript, jQuery, HTML5, CSS3, SASS, Bootstrap, Fonts, React bootstrap Material UI.
- Awesome, Visual Studio Code, Postman Web API Testing, UX/UI Responsive Design Techniques.
- Strong hands-on experience in Responsive design.
- Expertise in Web technologies like Angular, React Testing frameworks like Jest and karma.
- Familiarity with utilizing GIT and Bitbucket for version control.
- Proficient in Agile practices encompassing Sprint planning, execution, and overseeing activities throughout the entire Sprint lifecycle.
- Resolved 50+ critical issues identified by QA through rigorous debugging and code optimization, resulting in a 40% reduction in customer support tickets within the first month.
- Extensive expertise in conducting impact analysis, estimating work, designing development strategies, and providing mentorship to the team.
- Advanced mastery in JavaScript, encompassing DOM manipulation and a comprehensive understanding of the JavaScript object model.
- Good understanding of Angular, React.js and its core principles
- Experience with popular React.js and Angular workflows (such as Context Hook and Redux, Angular Building blocks)
- Experience with newer specifications of ECMAScript.
- Familiarity with integrating RESTful APIs and client-side binding utilizing Axios for streamlined data interaction.
- Experience with common front-end development tools such as Babel, NPM, etc.
- Proficient in translating business requirements into web designs.
- Developed and implemented custom UX components such as Accordion, Filters, Dropdown, Carousel, Button, Checkbox, Input, and Icons.
- Created a custom API layer using Axios Interceptors for CRUD transactions, integrating JWT token management for security.
- Maintained expertise in Redux for efficient state management, utilizing both Redux and Context Hooks.
- Utilized React-Hooks for application lifecycle management in both Functional and Class-based components.
- Collaborated with clients to define specifications and system designs.
- Employed Middleware, particularly Redux-Saga, for retrieving, storing data, and handling RESTful services.
- Applied CSS preprocessor SASS for styling web pages, leveraging mixins, functions, custom grid systems, grid-area concepts, and flexbox for responsive applications.

Technojo solutions – Hyderabad, TS

Member of Technical staff, March 2022 – Present

Project - Casino Games

- I was included in E2E development of the project which includes requirement gathering,
- Led the development of innovative and responsive web applications using Angular and React, ensuring cross-browser compatibility and optimal performance.
- Implemented scalable and maintainable code using JavaScript, CSS, HTML, jQuery, Redux, RxJS, and SCSS, resulting in a 30% improvement in load times.

- Collaborated with cross-functional teams to translate business requirements into technical solutions, ensuring seamless user experiences across platforms.
- Utilized Git for version control, managing codebase efficiently, and contributing to team productivity.
- Mentored junior developers, facilitating their growth and maintaining high coding standards within the team.
- Designing, Coding activities and Maintenance.
- Worked with version control system GIT and bug tracking tools in an Agile Scrum.
- Experimenting with latest front-end technologies as a part of implementation of the high-volume.
- Code review and refactoring.
- Used RXJS operators for getting live data.
- Responsible for doing unit testing & integration testing of the code. Working on performance tuning to speed up the system.
- **Stack** : - React JS, Angular13, Angular 7, JQuery, JavaScript, HTML, Angular Material, React Bootstrap, Bootstrap

Bluerose Technologies – Hyderabad, TS
Frontend Developer Aug 2021 – Feb 2022
Project - Caterpillar

- Designing, Coding activities and Maintenance.
- high-volume external web app that helped to improve speed of web development.
- Code review and refactoring.
- Responsible for doing unit testing & integration testing of the code.
- Working on performance tuning to speed up the system.
- Involved in solving the issues which we got from QA.
- **Stack**:- Angular, Ionic, JavaScript, HTML, CSS, Android Studio

Utthunga technologies – Bengaluru, KA Senior
Angular developer, March 2021 – Aug 2021
Project - User Profile Management & Device Management & Qur Store Description

- Designing, Coding activities and Maintenance.
- Code review and refactoring.
- Responsible for doing unit testing & integration testing of the code.
- Working on performance tuning to speed up the system.
- Involved in solving the issues which we got from QA.
- Migrating .Net code to Angular.
- **Stack**:- Angular 5, Angular Material, JavaScript, jQuery, HTML, CSS, Bootstrap

IGLULABS Software Private Limited – Bengaluru, KA
Frontend Developer, Oct 2020 – Feb 2021
Project - Matrimony

- Designing, Coding activities and Maintenance.
- Experimenting with latest front-end technologies as a part of implementation of the high-volume
- external web app that helped to improve speed of web development.
- Code review and refactoring.
- Responsible for doing unit testing & integration testing of the code.
- Working on performance tuning to speed up the system.
- Involved in solving the issues which we got from QA.

- **Stack:-** Angular 7, Angular Material, JavaScript, jQuery, HTML,CSS, Bootstrap

Envytee Info Solutions Private Limited – Hyderabad, TS
Software Developer, Aug 2018 – Oct 2020
Project - Action Planner (TMS)

- Developed and maintained user-facing features using Angular, enhancing the platform’s usability and performance.
- Implemented responsive designs, ensuring optimal user experience across various devices and screen sizes.
- Integrated Redux for state management, improving application stability and performance.
- Contributed to the optimization of existing codebase, resulting in a 20% reduction in page load times.
- Collaborated with design and backend teams to ensure seamless integration of frontend and backend components.
- **Stack:-** Angular 2,React JS ,JSX, Typescript JavaScript, jQuery, HTML,CSS
